Rainforest Rules & Regulations

Dear Parents:

The Kid-Fit Rainforest was carefully designed to be a safe, indoor playground for the children to enjoy while developing strength, agility, and confidence that carries over in school, sports, and a healthy balanced life. This "Rainforest" experience includes a variety of fun event/activities, including an augmented reality sandbox, warped wall, slanted steps, interactive wall projector games, rock-climbing wall, climbing rope, cargo net, slides, swings, a glider, trampoline and more. It also has cool rainforest background sounds, lighting, and décor.

The "Rainforest" is now a part of our programming for your children while enrolled in Lobo Active Learning Center. In order to keep our program as safe, sanitary and clean as possible, we have a few requirements and rules for the children to follow and we need parents assistance and cooperation to make this a positive and enjoyable experience. We are asking that your child keeps a **clean pair of non-skid socks in their backpack every day** if the "Rainforest" should be a part of their rotation on any given day to enjoy. These socks need to be in good condition to still be considered non-skid for their safety. Parents entering the "Rainforest" must also take off their shoes and wear socks.

The following are some of the basic rules and policies to be followed:

- **No shoes or bare feet are allowed in the "Rainforest". No open toed socks please.**
- **No gum, food or drinks are allowed in the "Rainforest".**
- **Do not splash or play with the water in the drinking water fountain.**
- **Hands must be washed before entering the "Rainforest".**
- **No running from one area/event to another.**
- **Must follow all rules posted prior to entering and within the "Rainforest".**
- **Décor including floral, animals, etc., projectors, speakers, lighting, photos, and other equipment that is not a part of open play must never be touched, handled or removed.**
- **The trampoline is not a part of the childcare programming per Texas Childcare Licensing; however, on open play days outside of the childcare program it may be used. Only 1 child at a time and no flips or other acrobatics permitted.**
- **No jumping down from the cargo net or climbing rope.**
- **When swinging, make sure that no one is in the path of the swing to avoid an injury. Swing must come to a complete stop before getting off.**
- **No sliding down headfirst on the slides. Only one child at a time may slide down.**

Please check the box below for your choice of what to do if your child does not have their non-skid socks.

Participation in the "Rainforest" programming at Lobo Active Learning Center

If my child does not have non-skid socks the day that he/she is scheduled to go into the rainforest, Lobo has my permission to provide a pair of non-skid socks and debit my account \$3.79 (\$3.50+tax).

If my child does not have non-skid socks the day that he/she is scheduled to go into the rainforest, I am ok with my child not participating in the activity.
